

Technical Skills

- C# and .NET
- TypeScript, Angular
- Javascript, JQuery
- HTML, CSS, Sass
- MSSQL
- VS2017, VS2019, VS Code
- Unity Editor

Personal Strengths

- Logical thinking and problem-solving skills
- Drive to develop my technical skillset
- Ability to work under pressure to meet deadlines
- Able to work as part of a team or independently
- Responsibility to be a team leader, to delegate and help

Game Dev.

Recently I have tried to put as much of my free time as possible into learning game development, and specifically the Unity Editor. I have completed a few fully-fledged projects but have many more which were created purely to test concepts. There is a full list of my public projects available both on my website and my GitHub profile
